SUMMARY

Frontend Developer and Software Engineer with hands-on experience building responsive, production-grade web applications using React, Next.js, and TypeScript. Skilled in API integration, state management, and developing data-driven user interfaces. Experience working in structured engineering teams and shipping real-world applications, with a strong focus on performance, usability, and scalability.

EDUCATION

- **Bachelor of Engineering (B.Eng), Computer Engineering**
Covenant University, Ota, Nigeria **August 2018 – July 2024**

CERTIFICATIONS AND TRAININGS

- **Associates Program Prep2Soar Course** – MasterCard Foundation | 2026
- **IT Customer Support** – Cisco Netacad | 2026
- **Digital Communication and Collaboration** – Cisco Netacad | 2026
- **McKinsey Forward Program** - McKinsey & Company | 2025
- **Meta Front-End Developer Professional Certificate** - Meta | Coursera | 2025
- **Responsive Web Design** - freeCodeCamp | 2024
- **Building a Calculator using C# in Visual Studio** - Coursera | 2022

SKILLS

- **Web Development:** React, Next.js, TypeScript, JavaScript (ES6+), HTML, CSS, Tailwind, Redux, REST APIs
- **UI/UX Design:** Adobe Illustrator, Canva, Figma, Wireframing, Prototyping, Responsive Design
- **Tools & Workflows:** Git/GitHub, Agile Development, Google Workspace Automation, Power Pages, Power Apps
- **Soft Skills:** Problem Solving, Communication, Team Collaboration, Adaptability, Attention to Detail

EXPERIENCE

- **Junior Software Developer | Internship**
Cardinal Educational Technology (American Open University), Ibadan, Nigeria | September 2025 – May 2026
 - Built and deployed a university application portal using Microsoft Power Pages and Power Apps, enabling structured student onboarding workflows.
 - Structured and managed course content on Canvas LMS to support digital academic delivery.
 - Collaborated with cross-functional teams to deliver responsive, user-focused web solutions.
 - Provided technical support for digital systems during institutional events and operations.
- **Social Media Manager | Internship**
Cardinal Educational Technology (American Open University), Ibadan, Nigeria | February 2026 – May 2026
 - Managed and grew social media platforms through digital engagement strategy across multiple platforms
 - Designed and produced digital assets and campaign materials for marketing and outreach
 - Managed and directed the technical setup for media production, studio operations and live streaming workflows overseeing both production and postproduction activities
 - Utilized Brevo to design and manage email campaigns for stakeholder communication
 - Coordinated live sessions and online events, handling technical execution and audience engagement
- **Frontend Developer – HNG i13 Cohort | Internship**
HNG Tech, Remote | October 2025 - December 2025
 - Progressed through all stages of the HNG i13 Frontend track, completing individual and team-based projects under strict deadlines and code-quality standards.
 - Built and deployed web/mobile applications using Next.js, React Native, TypeScript, and Tailwind CSS.
 - Implemented authentication, protected routes, form validation, and state management.
 - Integrated APIs (Supabase, Convex, PostgreSQL, Resend) to power dynamic interfaces.
 - Collaborated with frontend teams on HNG Connect and PathPanda, contributing to authentication pages, dashboards, documentation, and reusable UI components in Next.js + TypeScript codebases.

- Worked with professional Git workflows, pull requests and code reviews
- **Frontend Engineer**
Edurex Academy, Ibadan, Nigeria | June 2025 – September 2025
 - Automated lead capture workflows using Google Forms, Sheets, and QR systems.
 - Supported media production and internal digital operations.
 - Assisted in outreach activities and company research activities.
- **Junior Frontend Developer | SIWES Internship**
Cloudware Limited, Abuja, Nigeria | April 2022 – September 2022
 - Built a functional Angular 13 admin dashboard for internal use, applying self-taught principles and on-the-job learning.
 - Integrated the PayArena API with guidance from senior developers to implement user authentication and login verification features.
 - Refined UI/UX through supervisor feedback, enhancing usability and navigation.
- **Web Development Trainee | Internship**
Cloudware Limited, Abuja, Nigeria | September 2021 – October 2021
 - Created a single-page responsive website using HTML, CSS, JavaScript, Bootstrap, and jQuery as part of onboarding training.
 - Developed a sample web application using the C# MVC framework in Visual Studio, laying the groundwork for future development work.

PROJECTS

- **CHEDCOM NGO Website (Full-Stack Platform in Progress) | 2025**
github.com/Hephzibah-SO-Cu/CHEDCOM
Stack: Next.js, Tailwind CSS | **Database:** MongoDB | **Asset Storage:** RelImage
 - Building a monorepo platform with a public-facing site and an admin dashboard for blog, project, training and gallery management.
 - Implemented file uploads, API integrations, optimized image handling (AVIF/WebP), and dynamic previews to improve admin efficiency and site responsiveness.
- **CryptoWeather Nexus (48-Hour Build Challenge) | 2025**
cryptoweather-nexus-busayo.vercel.app
Stack: Next.js, React, Redux, Tailwind CSS | **APIs:** OpenWeatherMap, CoinGecko and NewsData.io
 - Built a multi-page site integrating APIs showing cryptocurrency, weather, and news data in real-time.
 - Implemented API caching and fallback handling to reduce free-tier request limits
 - Mocked and integrated WebSocket-based updates for live weather and crypto data feeds
 - Implemented features for User favorites, 60-second data refresh and fallback UI with mocked data
- **DLMS-CU (Learning Management System – Final Year Project) | 2024**
dlms-cu.vercel.app
Stack: Nuxt.js | **Backend and Asset Storage:** Firebase/Firestore
 - Led frontend design and collaborated on the development of LMS enabling student-instructor interaction and a course recommendation system
 - Collaborated on Firebase integration for authentication + real-time data updates.
 - Produced UX documentation, flowcharts, and conducted testing for academic defense.
- **Little Lemon (Meta Front-End Developer Capstone Project) | 2025**
github.com/Hephzibah-SO-Cu/Little-Lemon-CS
Stack: React.js
 - Developed a restaurant booking application from Figma wireframes.
 - Implemented form validation, accessibility compliance, and unit testing for reliability.

VOLUNTEER WORK

- **Media & Technical Team | RCCG | Recurrent Role:**
 - Operated livestreams, audio-visuals, and presentation tools during services.
 - Operated as photographer/videographer, handling event coverage and post-production.
- **Head of Photography Unit | NCCF Oyo State, Iseyin Orientation Camp | 2025**
 - Coordinated photography/media team throughout camp.
 - Supported content creation, post-production, and event documentation
- **Technical & Media Support Volunteer | Cirvee TechFest 2.0, Ibadan, Oyo State | 2025**
 - Provided technical AV/media support for event coverage during panels and speaker sessions

OTHER INTERESTS

- Photography | Videography | Media Production | Team Collaboration | Sports | Gaming
